# Why Schools Choose eLibrary

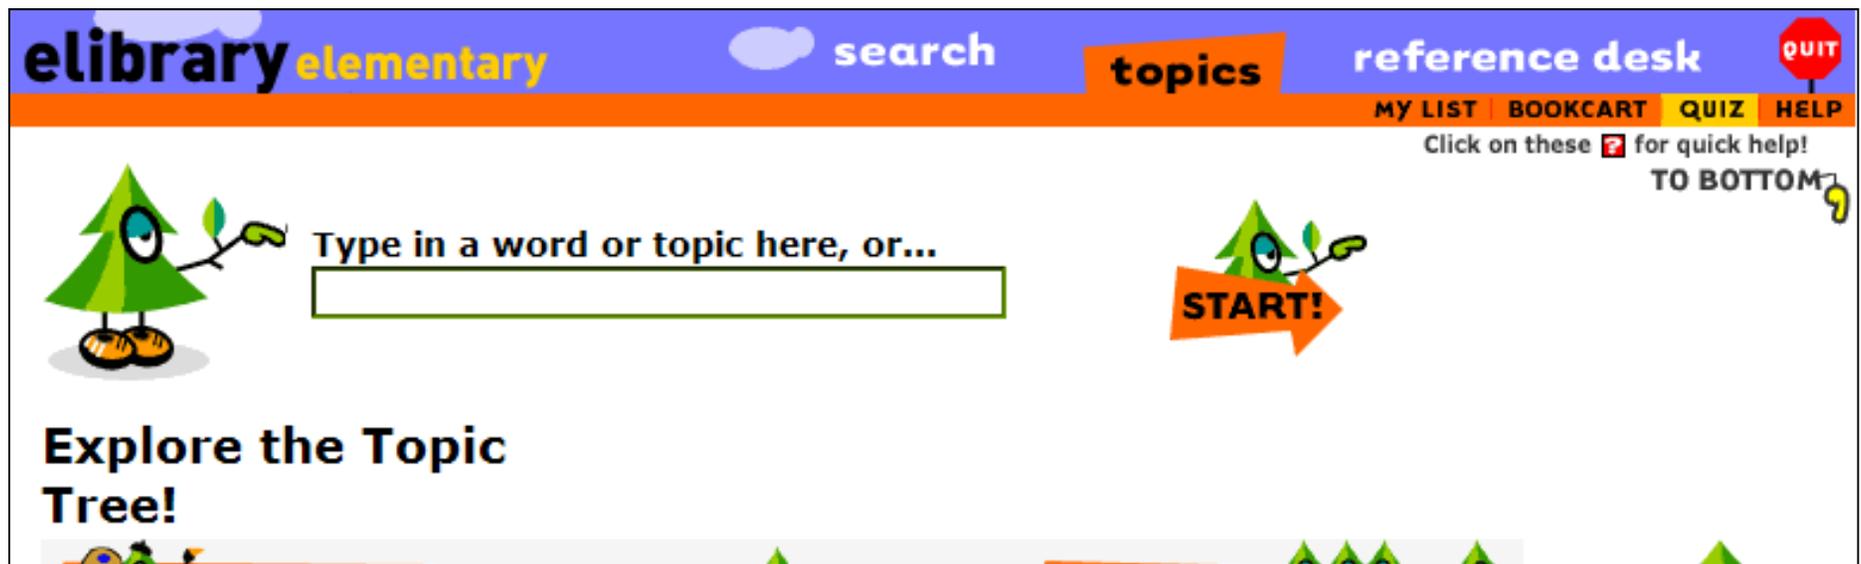

- eLibrary Elementary is the easiest to use research solution available
  - Provides quality, proprietary licensed content not available on the “free” web, Google, etc.

The screenshot shows the eLibrary Elementary website interface. At the top, there is a navigation bar with the following elements: the 'eLibrary elementary' logo, a 'search' button, 'topics', 'reference desk', and a 'QUIT' button. Below the navigation bar, there are links for 'MY LIST', 'BOOKCART', 'QUIZ', and 'HELP', with a note: 'Click on these [red square icon] for quick help!'. The main search area features a text input field with the prompt 'Type in a word or question'. Below the input field, there are two radio buttons: 'Natural Language' (selected) and 'Boolean Operators'. To the right of these buttons is a cartoon character pointing to a yellow arrow labeled 'START!'. Below the search options, there is a dropdown menu for 'Select number of results:' set to '50'. At the bottom, there are seven category icons with checkmarks: Newspapers, Magazines, Books, Maps, Pictures, Audio/Video, and Transcripts. On the left side of the search area, there is a cartoon character on a skateboard and two radio buttons: 'Select all sources' (selected) and 'Clear all sources'.

# Why Schools Choose eLibrary

- Online delivery provides currency, diversity of content, and variety of access methods – all in an engaging environment
  - Provides powerful, compelling resources for extending and reinforcing student learning and achievement

The screenshot shows the eLibrary elementary website interface. At the top, there is a navigation bar with the following elements: the text "elibrary elementary" in a blue and orange font; a "search" button with a magnifying glass icon; a "topics" button with a blue background; a "reference desk" button with a blue background; and a "QUIT" button with a red background. Below the navigation bar, there is a search area with a green tree character holding a magnifying glass and the text "Type in a word or topic here, or..." followed by a search input field. To the right of the search area is a "START!" button with a green tree character and an orange arrow. In the top right corner, there are links for "MY LIST", "BOOKCART", "QUIZ", and "HELP", along with a "TO BOTTOM" link with a scroll icon. Below the search area, there is a section titled "Explore the Topic Tree!" with a small tree icon.

# Why Teachers Choose eLibrary

- Students need to retrieve a manageable amount of quality content
  - Need a tool to do research that will quickly bring back safe, selected, reading level and age-appropriate resources

The screenshot shows the ProQuest eLibrary elementary interface. At the top, there is a navigation bar with the following elements: the 'elibrary elementary' logo, a search icon, 'topics', 'reference desk', and a 'QUIT' button. Below the navigation bar, there are links for 'MY LIST', 'BOOKCART', 'QUIZ', and 'HELP'. A message says 'Click on these [icon] for quick help!'. The main content area features a large cartoon character on the left, a search bar with the text 'What would you like me to look up for you?', and a 'START!' button on the right. Below the search bar, there are six icons representing different resource categories, each with a checkmark below it: a red book, two orange figures, a blue book, a green figure, a purple figure, and a yellow figure.

# Why Teachers Choose eLibrary

- Access reading-level and curriculum-specific resources from multiple sources
  - Teachers can create “electronic BookCarts” – lesson modules and resource collection pages with links to eLibrary Elementary items

## **17th Century Ships and Shipwrecks**

Essential Questions for Critical Thinking: 1. What can we learn from shipwrecks of 17th Century vessels? 2. Who were the leading countries for building ships and why did they do this? 3. What was special about pirate ships during this era and how did the ships of other countries combat this?

# Why Schools Choose eLibrary

- Students need an integrated resource with varied content, media types and search methods, saving training & research time
  - Teachers require multiple types of resources to be referenced in student work

The screenshot shows the eLibrary elementary search interface. At the top, there is a navigation bar with the following elements: the 'elibrary elementary' logo, a 'search' button, 'topics', 'reference desk', and a 'QUIT' button. Below the navigation bar, there are links for 'MY LIST', 'BOOKCART', 'QUIZ', and 'HELP', with a note: 'Click on these [question mark icon] for quick help!'. The main search area features a search box with the prompt 'Type in a word or question'. To the left of the search box is a cartoon character with a large eye and a magnifying glass. Below the search box are two radio buttons: 'Natural Language' (selected) and 'Boolean Operators'. Below these is a dropdown menu for 'Select number of results:' set to '50'. To the right of the search box is another cartoon character with a large eye and a yellow arrow pointing to a 'START!' button. At the bottom, there are seven icons representing different media types: Newspapers, Magazines, Books, Maps, Pictures, Audio/Video, and Transcripts. To the left of these icons are two radio buttons: 'Select all sources' (selected) and 'Clear all sources'.

## Why Families Choose eLibrary

- Students need an integrated resource with varied content, media types and search methods
  - Parents need the assurance their students are doing research in “safe” resources, unlike Google
- Remote access enables parents to participate in the study process

**Parent use guidance  
available @  
[proquestk12.com](http://proquestk12.com)**

- Public libraries need to offer an easy-to-use research solution to kids
  - Widest range of media types – from traditional periodical content and pictures and reference works
- Point-and-click functionality ensures that users find the information they need
  - Visual resources: maps, pictures, audio and video clips
  - Daily content updates

## Why Libraries Choose eLibrary

- Reference desk gives integrated access to dictionary, encyclopedia, almanacs, and much more
  - Library staff can create “electronic BookCarts”
  - Webpages on topics of community interest or research activities for patrons of all ages and reading levels

**Free marketing kits and newsletters boost usage and interest @ [proquestk12.com](http://proquestk12.com)**

# About ProQuest Solutions

- ProQuest resources unites high quality content, standards-based curriculum, and online technologies

The Washington Post 08-12-2007

Tiptoe Through the Craters  
Byline: Andrea Sachs Washington Post Staff Writer  
Edition: FINAL  
Section: Travel

A On any given day, 20 to 40 **volcanoes** are rumbling around the world, and travelers who walk too close to a spewing crater can be injured or killed by rocks, explosive blows and other geologic projectiles. "If you're going to a **volcano**, check in with the **volcano** observatory and ascertain its safety," said Marianne Guffanti, a volcanologist with the U.S. Geological Survey. "And don't try to go to the crater of an active **volcano**. Keep in mind that some active vents may be temporarily quiet and seem safe but then suddenly resume activity."

However, just because a **volcano** is active doesn't mean it's off-limits -- almost. In the States, the two liveliest **volcanoes** are Kilauea in Hawaii **Volcanoes** National Park and Mount St. Helens in Washington state. Hawaii's Kahaualea Natural Area Reserve and some trails are currently closed because of dangerous volcanic activity. (For updates, check the park's Web site at [www.nps.gov/havo/planyourvisit/lava2.htm](http://www.nps.gov/havo/planyourvisit/lava2.htm)).

Natural Language Boolean Operators

<input checked="" type="checkbox"/>							

When you go to the search page, the search is defaulted to **Natural Language Search**. This means that you can enter a phrase or question as you would normally ask it. For example, "the distance from the earth to the sun" or "What is the distance from the earth to the sun?"

You can select to do a **Boolean Search** by clicking the button under the search field. Then enter multiple key words connected by Boolean Operators like AND or OR. For example, "distance and
